Thoroughly Reliable and Practical Cotton-Gin Feeder. No. 324 Front Street. - Memphis

NOTICE TO COTTON PLANTERS

IN offering this reliable machine to the Planters, which has proved so satisfactory to all who have used them, we but repeat their statements when we boast of their practical utility.

It increases the product of the gin.
It is eases the required power by giving a regular supply to the gin.
It makes a better cotton by the same gin.
It saves the saws of the gin by preventing stones, nalls, from, and other hard sub-tances from going into the breast of the gin.
It keeps the roll from breaking and thereby napping or gin-cutting the cotton if property adjusted.

No. 10 West Court St. | Rooms 14 and 15 MEMPHIS. TENNESSEE aston, works automatically in connection with grn, and saves hand-labor of the ginner, inflicuit to control, and bests him, every a, in quantity and quality. guaranteed to perform all we have
